DETAILED ACTION

Response to Arguments

1. The Applicants' arguments and amendments filed on July 20, 2006 have been fully considered and are persuasive.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
3. Authorization for this examiner's amendment was given in a telephone interview with Edward A. Kmett (Reg. No. 42,746) on October 25, 2006.
4. The application has been amended as follows:

Please amend *claim 31* as follow:

31. (Currently amended) Computer executable process steps according to Claim ~~28~~ 29, wherein the member registers with at least one multicast group corresponding to add, delete, modify or search change categories.

Allowable Subject Matter

Art Unit: 2145

5. *Claims 1-12, 19-25, and 29-35 are allowed. The claims indicated include limitations that the prior arts of record do not appear to teach or render obvious, hence they are allowed.*

6. The following is an examiner's statement of reasons for allowance:

As presented in the previous Office Action, Crawley (US006321270B1) teaches of *configuring multicast groups by adding, deleting or modifying network nodes as members that subscribes to receive changes or updates in the network topology. According to Crawley, "some network nodes participating in a particular multicast session may be preconfigured by the network administrator" (Crawley, col.4, lines 65-67) implying that the network administrator may preconfigure a multicast session for a set of network nodes or group that, in responding to "various types of changes, including adding new multicast members, deleting existing multicast members", etc. (Crawley, col.5, lines 23-25), "the multicast control information and network nodes participating in the multicast sessions are updated" (Crawley, col.5, lines 27-29). Hence, Crawley teaches of configuring multicast groups and updating information to the subscribed multicast groups. Also presented in the previous Office Action, Holloway et al. (US006175866B1) teaches of a method and system where "one or more network parameters of one or more network devices are grouped. In response to grouping, a group monitor is constructed wherein any changes of the grouped one or more network parameters are reflected by the constructed group monitor. The constructed group monitor can thereafter be monitored for indications of changes in any of the grouped network parameters" (Holloway, col.2, lines 33-40).*

However, the prior arts of record fail to teach or suggest individually or in combination as stated in the independent claims for *"establishing plural multicast groups, each multicast group corresponding to a respective change category for a type of change made to the directory in the directory server, and"* and in combination with other limitations as set forth in the independent claims, as well as Applicants' arguments presented on pages 9-15 of the amendment filed on July, 2006. In the fore mentioned amendment, the Applicants argued, *"A group of network devices having a common network parameter that can be changed is simply different from a multicast group corresponding to a respective change category for a type of change made to a directory in a directory server."* (pg.14, lines 4-7).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas Duong whose telephone number is 571/272-3911. The examiner can normally be reached on M-F 7:30AM - 4:00PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jason D. Cardone can be reached on 571/272-3933. The fax phone numbers for the organization where this application or proceeding is assigned are 571/273-8300 for regular communications and 571/273-8300 for After Final communications.
